

The Future of Commercial Roof Management Is Here!

About Advanced Access

Advanced Roofing Inc.'s convenient and easy-to-use Advanced Access cloud-based roof management portal gives building owners and property managers information about their roof assets on their own terms. Whether in the office, at home or in the field, the information you need is always available through any internet-ready device.

Advanced Access Features

Sites Dashboard: Quickly view details about all of your roof assets in one location.

Service Dispatch Center: Send and track roof work orders with the click of a button.

Site Inspection Reports: Generate custom reports for your roof assets in minutes.

ADVANCED ACCESS ONLINE ROOF MANAGEMENT PORTAL

Powered by Advanced Roofing, Inc.

Sites Dashboard

The Advanced Access Sites Dashboard allows customers to quickly view all of their roof assets in one place. No matter where you are, the dashboard gets you to the resources you need in real-time. Sites Dashboard benefits include:

- **Communication Tracking:** Email roof related-inquiries within the system to create a permanent record of all correspondence.
- **Interactive Maps:** Check the properties you're interested in visiting and map their locations.
- **Document Storage:** Find the property information you need easily with search, filter and sort tools.
- **Custom Reports:** Print or export your roof asset data to Excel and create custom reports.

Service Dispatch Center

Advanced Access gives you the capability to send and track work order requests to our team from anywhere with the click of a button. With package-style tracking, you can follow a project in real-time until the issue is resolved.

Dispatch 02/04/15 7:36:49 AM	Arrival ETA 02/05/15 8:00:00 AM	In Progress 02/05/15 8:30:23 AM	Resolved 02/05/15 10:03:45 AM	Confirmed 02/05/15 10:33:00 AM
------------------------------------	---------------------------------------	---------------------------------------	-------------------------------------	--------------------------------------

Service Dispatch benefits include:

- **One Click Dispatch:** Use any internet-enabled device to schedule roof work.
- **Package-Style Tracking:** Work orders are tracked and time stamped at every step so you know the status of your project.
- **Automated Billing:** Invoices automatically generate as the ticket is closed out.

Site Inspection Reports

Advanced Access Site Inspection Reports provide customers with up-to-date digital reports of their roof assets and offers custom reporting to help with budgeting for future repairs and capital expenditures. No more hard-copy paper reports from the past. Advanced Access generates "living" inspection reports that are updated when service work is completed on your roof. Roof inspections are uploaded to the customer portal seamlessly and can be viewed from any device. Site Inspection Reports benefits include:

- **Observations:** View your roof without ever leaving the office. All service tickets, warranty information, invoices and repair documentation are stored for future analysis.
- **Current Condition:** View a summary that quantifies your roof assets' current status and the expected useful life.
- **Recommendations:** Receive suggestions on roof work driven by quality, supporting information and easy-to-understand grading.
